Prospectus of the Christian Mirror.

This paper will be devoted to the discovery, illustration, and defence of truth—to the advocacy of whatsever things are pare, lovely, and of cood report. So far as it may be deemed expedient to give it a local character, it will aim more especially, to promote the interests of Apostolic (hristianity in Kentucky, But a brief outline of its intended course, can be bere sketched.

I. A candid and thorough examination of the questions involved in Church Organization and Cooperation, will be attempted. The Bible Society question will be considered. Much investigation of these subjects is yet demanded. Let no one depiecate discussion. In the midst of society in rapid progress, it is unavoidable, and is to be invited, rather than repelled. It is not discussion that is dreaded, but those anary extenditions, into which, even religious discussions too often descand. Nothing of these last, shall ever hace a place on the pages of the Mirror, in general, nothing that can be personally offensive to any one, will be admitted, unless the defence of the community against imposture, shall unently demand it.

II. To furnish entertaining and instructive reading for the younger members of clurches, being not the less timporture, and in the community against imposture, shall unently for their advantage especially, a brief exposition of the elementary principles, and ultimate aims of the Reformation.

III. The subject of Education in general, and of Female Education in particular, will receive such attention as we may be able to give. Hims, as to the best move of instruction as family

aims of the Reformation.

111. The subject of Education in general, and of Female Education in particular, will receive such attention as we may be able to give. Hints, as to the best mode of instructing a family in the Sacred Scriptures, will be offered,

1V. Condensed reports from caurches and Evangefists, reports of State, Annual, and Co-operation meetings will be published; and any advertisement required by the common interests of the churches.

V. We shall endeavor to record in a few lines, the principal religious events of the times.

VI. But especially, and above all things else, we shall invite our heloved brotherhood forward and upward to the higher grounds of godliness, brotherly khanness, and charmy. It is mainly from a desire to accomplion something in this respect, that this prospectus is submitted to the public. The field we purpose cultivating, is not occupied fully by our writers, nor has it been. We shall, if possible, make the Mirror equal to our times, both in its mechanical and literary features, and yet, we shall aim to be useful rather than shiring. Gladly will we Liverge the honor of being thought a philosopher—an accomplished essayist—a profound expositor, if we may but successfully invite the thousands of young professous away from the vainties of earth, to the enjoyment of the grote of Christ, the love of God, and the communion of the Holy Spirit. And whether we reason or discuss; reprove or rebuke; exhort or entreat; we intend that the paper shall, in some good degree, refact the excellency of the knowledge of Jesus Christ on Lord.

Those to whom this prospectus shall be seed, are respectfully requested to interest themselves in behalf of our project. Should it succeed, the proceeds will shortly be appropriated to the length of a charitable institution, that every friend of the female or phan—that every philanthopist away appropriated to the female or phan—that every philanthopist away appropriated to the female or phan—that every philanthopist away appropriated to the female or phane

In offering the resolutions, Mr. RUSSELL, the Senator from Franklin, remarked, that he hoped they would meet the unanimous concurrence of the Senate. The deceased is a son of one of the pioneers of Kentucky, the descendent of a noble old soldier and an honest man. He was young, brave and patriotic. When, in 1846, the young men of Kentucky were called upon to enter the field in the service of the country, Capt. FRANK CHAMBEES was one of the first to step forward in response to the call. He was elected to the command of the Infantry company from this place, which was attached to the Regiment of the lamented Col. W. R. Mckee. REMARKS of Mr. COMBS of Fayette, on the bill to exempt certain articles from specific taxation:

Mr. COMBS said, Mr. CHAIRMAN: when the main uestion was reduced by the amendment of the gentleman from Hardin, (Mr. Brown,) to the simple one of exempting spectacles, it was hardly vvor-thy of discussion, and if that was the only matter now presented for our consideration I should say nothing. But in the discussion of this questic n of specific taxation, we must go to the botton t in order to see all its bearings upon society.

Although the gentleman from Henderson, (Mr. Towles,) has referred us to the constitution as vir-Mr. BARLOW moved to reverse the report of the tually prohibiting this kind of taxation, yet I do not see any thing in the argument. Taxation has been the subject of much discussion with political economists, and a proper system must have been estab-lished in order to build up that superstruction which we now see erected upon it. Taxation, direct or not direct-in one form or another, has been found necessary ever since civilization began. It is equally necessary in the Royal Government with its serfs and peasantry, and in a community where the people themselves are governors.

If the constitutional argument amounts to any hing it is by strict construction, and if we should apply the same construction to that part which says Courts of Justice shall be always open," it would make it constitutionally necessary for them to be open at all times, in summer and winter, at sunrise, snnset, at midnight and at noonday, but such i

nor have the wild savages. To earn our bread by Mr. BOWEN made a statement of the facts in the sweat of our face, is not a curse but a blessing, ness, and none are so utterly miserable as those who have nothing to do.

The powers of the General Government of the United States, enables it to be supported mainly from its duties on imports; but the State are not allowed to do that, for the labor and manufactures of one State are freely transported for sale in any other. We must go on too, with our State Government and greese the wheels by which it is rolled on from year to year, by our taxation. We must have laws to govern us and officers to execute them, and they must have food and raiment for themselves and their Also, a bill to divorce Susan F. should be the prime object of all legislation. The gentleman from Henderson, (Mr. Towles.) yesterday enlightened this body by reading from a work of the Rev. Sidney Smith, a gambler in public stocks, a pedlar of church benefices, and a licensed calumniator of America; what he says is read here to support the argument against specific taxation. Yes, this calumniator of America and American Statesmen, is cited here to support his position But it fails to do so.

England is taxed to death, but not for the purpos of carrying on free Government, but for prose unjust wars for territorial acquisition, in order that she may boast of her morning gun being hourly fired the world around.

Look to India and the far off Islands of the sea, and you will find there the cause of her taxation; she has tried to cope with the whole world, and has made a common charnal house, and those are the reasons of her onerous specific taxes.

Sidney Smith, that calumniator of America and America's sons, has said that we have not produced a single great man; but I could mention a few names that stand in bold relief on history's page, that are not outrivalled by England's proudest names. He who stood first in war, first in peace and first in the hearts of his countrymen; and he who first drew down took it up and converted into a medium of messenger, with "glad tidings" across the Union Go to the arts, the sciences, go every where you all. And yet we have this book read to this Legis

lature to alarm us about specific taxation. It is impossible to make taxation perfectly equal An ad valorem tax must impose a certain percentum upon every selected article; and you tax the farm

worth \$5,000 and which would rent for \$250, the }= same as a city house worth the same amount that will rent for \$500, and where sir, is the equality! Gentlemen may talk of equality in taxation, but it can exist no more in ad valorem than in specific lines. Then, if equality is not to be had, let us tax the rich man's luxury, and the vain man's pride, let the rich man pay for his enjoyment with splendid carriages and gold bowed magnifiers, and let the honest poor man pay his debts with his gold watch, and then he will not be taxed for it. But few have

The author of that book which we have had cited to us to make capital against specific taxes, has, on another page, spoken of our country as having furnished no great men-scholars, statesmen. or warriors-for whose great chivalry and wonderful achievements did we fire the national salute on the 8th of January! And to whose honor will we have a hundred guns on the glorious anniversary of the 22d and 23d of February! Have they ever produced so great a man as he, who although unsuccessful in the great political battle of his life, and now reviled by his political calumniators and apponents, yet to whom History will award justice, and in so doing, will place him on its brightest page! Can they mention a rival to the names of Taylor and Scott, whose wonderful achievements in Mexico, have been a continued succession of miraculous victories!

I believe it to be good political economy to tax all articles manufactured of the precious metals, and yet I would not wish to tax that ring of a peculiar character, used generally only once in the course of human existence, to tie two hearts together, but I would let them circulate as freely as possible

I would exempt those, and tax the luxuries of the gambler, the coward, and the assassin, those weapons which have drenched our streets with blood.

It is true that in England they tax every thing which you eat, wear or drink; they tax the habli-ments of the dead, and the bridal ornaments of the living. But here, we have no such tax and need never fear it.

THOUGHTS OF A LEGISLATOR.

That I may live with peace of mind, To give just votes is right ! find; Therefore, whilst in this corporation, I'll go 'gainst all appropriation. Although it seems there will be kicking, Against those who do not vote for Licking. Therefore, ye friends, who ride the ridges, Ye have no use for Locks or Bridges. The world will rightly call us fools, To squander money, and make no schools; The richest thing in all the nation, 1s to give your children Education; So sell your swords, take books for prize, And come and vote with Doctor Price.

speaking for some time, gave way to a motion to adjourn and the Senate adjourned. In the House of Representatives, the Speaker an-

nonneed that the first business in order would be the joint resolution respecting the transportation of the mails, and the amendments to the same recommended by the committee of the Whole. After several amendments had been voted upon,

the question was put on ordering the resolution be engrossed, and decided in the negative. So the resolution was killed. On motion of Mr. Vinton, the House now resolved itself into a committee of the Whole, and took up

the President's message for reference. Mr. McClernand, of Illinois, addressed the committee at length. He went into a general defence of the measures of Mr. Polk, the war question, and

the veto of the harbor and river bill included. Mr. Stanton, of Tennessee, followed and took ground against the doctrines laid down in the veto message by the President. He reviewed the arguments of the President and argued to show that they were incorrect. He replied to the speech of Mr. Rhett, made on a former day on the subject of internal improvements.

He regretted the necessity of differing from the President-regretted it on account of the consequences, for if the President's doctrine were to be fully and fairly carried out on this subject it would blow out every light-house and sweep away every pier on the whole length of our coasts, and leave our

commerce unprotected. But although he believed there was constitutional authority for works of internal improvement, such as were named in the vetoed bill, yet he did not believe it would be expedient, at this time, while engaged in an expensive and just foreign war, to carry on such works. He was for voting every dollar the President asked for, to enable him to carry on the war vigorously, even if it should require a tax to be laid on tea and coffee. He, however, hoped it would not 100 Barrels Superfine Ohio Flour;

LIFE INSURANCE.

NAUTHUS (MUTUAL LIFE) INSURANCE COMPA-NY, No. 29, WALL STREET, NEW YORK.

This company, which confines its business exclusively to Life Insurance, has now been in operation two years and a half, during which period it has issued 15:3 policies, and for the first eighteen months it experienced no loss. Its losses for the whole time have been less than \$15,000—leaving an accumulation of about \$65,000 on hand, beyond the payment of claims and expenses. This, added to the original guaranty capital of \$50,000, places the security of the Company on a basis so solid as no longer to admit of a rational doubt.

All its profits accine to the credit of the dealers, and are divided annually among them, whether the policy to issued for a limited period or for the whole term of life, a leature unknown in the charter of any other Mutual Life Insurance Company incorporated by this State.

Two dividends of 50 per cent, each, on the annount of premiums received, in accordance with the provisions of the charter, have been declared, and are credited to the accounts of the assured, and for which scrip certificates will be issued.

A dividend of 6 per cent, on the first year scrip has likewise been declared, payable in ash, to the holders thereof on DENAND, at the office of the Company.

For policies granted for the whole term of life, when the premium therefor amounts to \$50—a note for 40 per cent with interest at 6 per cent.—without yearanty, may be received in part payment, or it may be paid in cash, in which case it is expected, should the party survive to make 13 annual payments, leaving the dividends to accumulate—the p-dicy will be fully paid for, and the accumulation ultimately added to the policy.

For inther information, the public are referred to the party of the Company, or any of its Agencies. Tills Company, which confines its business exclusively to

KENTUCKI MILITARY INSTITUTE.

This Institution, created by an Act of the General Assembly will be opened for the reception of Pupils, On the 1st of March, 1847, under the immediate di-rection and entire control of a

Board of Visitors,

Appointed by the Executive of the Commonwealth.

Appointed by the Excentive of the Commonwealth.

It contemplates a Military Organization for Literary and Scientific purposes; an education eminently scientific and practical; the formation of regular habits, and the diffusion of a knowledge of Military Science.

Military duties will not be permitted to interfere with the pupil's progress in study, but will rather take the place of his unprolitable, and often, vicious play.

The course of study adopted, and which will be required in order to graduation, is that usually taught in the best Colleges, except that but one language is required. (Latin or French, the time usually occupied by the second, being devoted to a more extended course in Mathematics, Natural Science and English Literature.

tended course in Mathematics, Natural Science and Eughsh Enterature.

A Preparatory Department is organized in connection with the Institute, in which boys of any age are taken, and are subjected to the same Military discipline as the Cadets.

The position of the Institute, at the Franklin Springs, near Frankfort, Kentucky, (recently occupied by the Franklin Institute), is admirably adapted intevery respect to Academical purposes; the locality being siry and leadthy, the mineral waters salubrions, the buildings elegant, extensive and commodicus, and entirely apart from the comamination and multiphed malign influences, which seem inseparable from a city or village residence.

The Institution is placed under the charge of Col. K. T. P. ALLEN, as SCHERINENDENT, who has been brought prominently before the public, as a competent and successful teacher, and ly before the public, as a competent and successful teacher and governor of youth, by his honorable graduation at the United States Military Academy; his subsequent connection with the Army, and with the Eucineering Service of the General Government, as Superintendent of public works; by his long experience as an Instructor, by his recent connection with the Trans, I

vania University.

The Academic Year will be divided into two Sessions of twenty one weeks each.

The first commencing on the 1st Monday in October, and the second on the 1st Monday in March. The only vacation occupying the months of August and September.

The month of July will be spent in an excursion torough the State, for the better study of its Geology and of Natural Science generally.

generally.

Applicants for admission, on paying the charge of the Institute, and presenting a certificate of good moral character, will be admitted into the classes as their advancement may justify, and upon satisfactorily passing the next examination theresiter, will be entitled to a warrant of appointment, as Cadet, from the Governor. The uniform of the Cadets is plain and neat, and being of Kentucky Jeans, will greatly reduce the expense of their clothing.

Dr. Penney's Ague Pills.

Dr. Penney's Ague Pills.

In presenting the public with this remedy for the most troublesome of Western diseases, I am not onapprized of the opposition that it will at first meet; for the community has sufficient much by the impositions and trauds practiced by the getters up and venders of patent nostrums, specific remedies, and medicines professing to cure all diseases. So much have the people suffered from such infractions on their credulity, that it would seem foolish in any one, at this day, to introduce a specific for any lisease; but I do it, and do it too, sauguine of success. Having had ample opportunity to test the efficacy of the Ague Pills now presented to the public, I do assure it, that they have never failed to come in one solitary case where the directions were strictly observed.

They seem equally as well adapted to Agues of long standing as more recent ones. I could adduce a great many certificates in support of what has been said above, as regards their success; but that would swell, unnecessarily, this publication. A tew respectable witnesses are worth a host that are otherwise. See what Dr. John McRobeits, Drug, ist and Physician in Lawrenceburg, Kentucky, says, whose acquaintance with the Ague Pills is better than that of any other persons.

This is to certify, that last spring my wife and self were both severely afflicted with I hills and Fevers. I procured two boxes of Dr. Penney's Ague Prilis: we took them by the directions, and neither one of us had another Chill after we commenced their use. Some of my neighbors have also used them, and, so far as my knowledge extends, with complete success.
